

A V M O U N T S

KSL is a modern Ukrainian factory. Our specialty
- mounting solutions for Digital Signage industry.

The history of KSL began in 2009. Since then we have designed and manufactured numerous professional solutions for different Digital Signage projects. Our partners know that we solve the hardest tasks.

In-house manufacturing facilities allow us to control 100% of operations. Our R&D department regularly rolls out new models as well as improves the existing model line.

Our Quality Control lab extensively tests each new product before it enters mass production. Each batch of finished products undergoes quality testing before it leaves the factory. We only use materials that meet international standards. This is the way we guarantee consistent high quality of our products.
